ABSTRACT

Preference of Internet Users in Jakarta toward News Delivery and Display based on Mass Media’s Selected Characteristics:
A Comparison of Paper versus Digital Media

Sukmawati Phang
2201982037 / 09994348

Newspapers have become great carriers of content in spreading information. And there is no more wonder that so many people have difficulty separating them in their minds and even their needs of life. On the other side in this life, the explosive growth of personal computers to the World Wide Web and other forms of cyber media in recent years have clearly shown that the cyber age is in our headed way. And within these recent years, we can begin to see that the adoption of digital publishing technologies has become a transition to another medium for the printed press. Those all bring this interesting problem to the surface which are: (1) is there any preference differentiation based on the mass media’s characteristic toward the newspaper and electronic newspaper?, (2) what will be the newsreaders’ choices toward those two different mediums?, and (3) how do the media’s characteristics affect the choices?

This study aims to give a portrait of newsreaders’ preferences – restricted to the internet users in Jakarta – toward the news delivery and display by the mean of the printed media versus the digital one (restricted on the comparison of text-based figure) based on those two media’s selected characteristics. Research approach used is survey research with the population is the Internet users in Jakarta.

Keyword: comparison, Internet, preference, characteristics, printed press journalistic and electronic newspaper.

List of Tables ............................................................................................................. x
List of Figures .......................................................................................................... xii

## Chapter One Introduction

1.1. Background of the Study ................................................................................... 1
1.2. Problems Statement ......................................................................................... 2
1.3. Significance of the Study .................................................................................. 3
1.4. Scope/Delimitation of the Study ....................................................................... 4
1.5. Thesis Structure ............................................................................................... 5

## Chapter Two Fundamental Theories

2.1. Internet .............................................................................................................. 6
   2.1.1. Definition of Internet ................................................................................ 6
   2.1.2. The Existence of Internet ....................................................................... 8
2.2. Journalism ........................................................................................................ 13
   2.2.1. Definition of Journalism ...................................................................... 13
   2.2.2. From Traditional to Digital Journalistic .............................................. 14
2.3. Consumer Behavior ......................................................................................... 18
2.4. Research Method ............................................................................................ 19
   2.4.1. Definition of Research .......................................................................... 19
   2.4.2. Steps in Research .................................................................................. 20
   2.4.3. Dimensions of Research ...................................................................... 22
      2.4.3.1. The Purpose of Study .................................................................. 22
      2.4.3.2. The Use of Research .................................................................. 24
      2.4.3.3. Time Dimension in Research ....................................................... 25
      2.4.3.4. Data Collection Techniques ......................................................... 26
      2.4.3.5. Constructing The Questionnaire ................................................ 27
2.5 TOWS Matrix ................................................................................................... 28
2.6 Some Other Glossaries ..................................................................................... 30
Chapter Three Research Methodology

3.1. Methodology ................................................................. 35
3.2. Population and Sample .................................................. 36
3.3. Data Collection .............................................................. 38
3.4. Data Measurement ......................................................... 40
3.5. Data Analysis ............................................................... 41
3.6. Conceptual Model .......................................................... 44
3.7. Hypothesis ................................................................. 45
  3.7.1. First Hypothesis ...................................................... 45
  3.7.2. Second Hypothesis .................................................... 46
  3.7.3. Third Hypothesis ..................................................... 46
  3.7.4. Fourth Hypothesis ................................................. 46
  3.7.5. Fifth Hypothesis ..................................................... 47
  3.7.6. Sixth Hypothesis ..................................................... 47
  3.7.7. Seventh Hypothesis ................................................ 47
3.8. Decision Rules ......................................................... 48
  3.8.1. First Decision Rule for the First Hypothesis ................. 48
  3.8.2. Second Decision Rule for the Second Hypothesis .......... 48
  3.8.3. Third Decision Rule for the Third Hypothesis .............. 49
  3.8.4. Fourth Decision Rule for the Fourth Hypothesis .......... 49
  3.8.5. Fifth Decision Rule for the Fifth Hypothesis ............... 50
  3.8.6. Sixth Decision Rule for the Sixth Hypothesis .............. 50
  3.8.7. Seventh Decision Rule for the Seventh Hypothesis ....... 51
  3.8.8. Summary of Decision Rule ...................................... 52

Chapter Four Data Analysis and Findings

4.1. Data Testing ............................................................... 54
  4.1.1. Validity Test ......................................................... 54
  4.1.2. Reliability Test ...................................................... 57
  4.1.3. Randomization Test ............................................... 57
4.2. Comparative Analysis .................................................. 58
  4.2.1. Media Accessibility Factor ....................................... 59
    4.2.1.1. Media is easy to use ........................................... 59
    4.2.1.2. In-town journalist is easy to procure ...................... 60
    4.2.1.3. Other-town journalist is easy to procure ............... 61
    4.2.1.4. International journalist is easy to procure ............ 62
    4.2.1.5. There is much kind of choices ............................ 63
4.2.1.6. Price of media is reasonable ............................................. 64
4.2.1.7. Average of media accessibility factor ............................... 65

4.2.2. News Completeness Factor ................................................. 66
    4.2.2.1. Previous/old journalist is still accessible .................. 66
    4.2.2.2. Hot news is completely contained in ......................... 68
    4.2.2.3. All kinds of news are contained in .......................... 70
    4.2.2.4. Average of news completeness factor ........................ 71

4.2.3. News Usefulness Factor .................................................. 72
    4.2.3.1. News’ titles are clear ........................................... 72
    4.2.3.2. News’ contents conform to the titles ........................ 73
    4.2.3.3. News’ contents give all information needed ............... 74
    4.2.3.4. Other kinds of information are also contained in ........ 75
    4.2.3.5. Feel necessary to get the other information .............. 76
    4.2.3.6. Average of news usefulness factor ............................ 77

4.2.4. Media Appearance Factor ................................................. 79
    4.2.4.1. Like/enjoy the appearance ...................................... 79
    4.2.4.2. Media supplies enough pictures/photograph ............... 80
    4.2.4.3. Feel necessary to be supplied by pictures ................. 81
    4.2.4.4. Table of content or menu is contained in .................. 82
    4.2.4.5. TOC or menu is helpful for news searching .................. 83
    4.2.4.6. Without TOC/menu, still easy in searching ................. 84
    4.2.4.7. News’ display/layout is easy to be read .................... 86
    4.2.4.8. News’ topics are well segmented ............................. 87
    4.2.4.9. Average of media appearance factor .......................... 88

4.2.5. News Usefulness Factor .................................................. 90
    4.2.5.1. Often need to move to another page for continued news .. 90
    4.2.5.2. Feel annoyed to move often to another page ............... 92
    4.2.5.3. Need quite a long time to move to another page .......... 93
    4.2.5.4. Feel annoyed to move in quite a long time ................. 94
    4.2.5.5. Easy to move back and forward ............................... 96
    4.2.5.6. Hot news is contained in the same day ..................... 97
    4.2.5.7. Average of news timeliness factor ............................ 98

4.2.6. News Reliability Factor ................................................ 100
    4.2.6.1. Trusted resources people support the journalist .......... 100
    4.2.6.2. Numerical facts are supported by trusted reference ...... 101
    4.2.6.3. Same news among several journalists often contradicted .... 103
    4.2.6.4. Often confirmed by other resource person for invalid news .. 105
    4.2.6.5. Average of news reliability factor .......................... 106
4.3. Result of the Hypothesis Testing.......................................................... 107
  4.3.1. First Hypothesis ........................................................................... 107
  4.3.2. Second Hypothesis ................................................................. 108
  4.3.3. Third Hypothesis ...................................................................... 109
  4.3.4. Fourth Hypothesis ................................................................... 110
  4.3.5. Fifth Hypothesis ....................................................................... 111
  4.3.6. Sixth Hypothesis ...................................................................... 112
  4.3.7. Seventh Hypothesis (Overall Result of Hypotheses) ............... 113
4.4. Interpretation of the Result of the Hypothesis Testing .................. 114

Chapter Five Conclusion and Recommendation

5.1. Conclusion ...................................................................................... 117
5.2. Recommendation ........................................................................... 123
  5.2.1 Recommendation for the news publisher .................................. 123
  5.2.2 Recommendation for further research ..................................... 126
