ABSTRACT

This thesis is titled "The Existence of Video camera Stimulating Students' Involvement in Doing Speaking-Communicative Activities". The goal is to enquire whether this technique is good or the opposite. There are 11 students as the subjects. They are from level 08 English First, Meraya. The reason of choosing this class is that they have already acquired some sufficient vocabularies and skills in English. They were given four different speaking-communicative activities with and without video camera. They were done within some gaps to prevent boredom. According to the research, there are significant differences between the activities with and without video camera. When they are filmed, they are more careful with what they say and more serious. Due to their seriousness, they do the activities less than the required time and do not make a lot of mistakes in terms of speaking and writing. To get success in using this method, the teacher should always praise the students to what they do well to get rid off their nervousness. The teacher should also pre-teach target language and vocabularies that will be in the activity, so the students will be knowledgeable about the topic and be confident.
ACKNOWLEDGEMENT

It is a blessing to be able to accomplish this thesis. This could not have been done if there were no any supports from my Lord, Allah SWT, and some great people. Therefore, I would like to thank to Allah SWT for the blessing given to me so that I could finish this thesis. I would like to thank to the strongest people ever, my father and mother for supporting me in every single thing I do. I also want to thank to my families, brothers, sisters, aunt, grandma, and uncle for the ears set for me whenever I feel sad and happy about doing this thesis.

Difficulties and obstacles have gone by the suggestions, opinions, helps, and tips from the greatest mentor ever, Ms. T. Hoo Hong Sing. Thank you so much for guiding me in doing this thesis. I am so glad and honor to have such a helpful mentor like her. I also want to thank to Mrs. Jeanneke Indra Dewi, the Dean of Faculty of Letters, and Mrs. Wiwik Andreami, the Head of Faculty of Letters, for allowing me to conduct this thesis. Without them, I believe I would not have done this far. I also want to thank to Mrs. Rum Hera Ria for giving me some great suggestions, and solutions. A big thank is also given to Sir Wishnoebroto for teaching me a lot of things about how to write a scientific writing and giving me great ideas. My biggest thank is also dedicated to all of my lecturers from Bina Nusantara University who have or not thought me during my studies. Thank you so much for teaching me through the semesters taken.

Without books, I believe this thesis could not have been done. Therefore, I would like to thank to Tubagus Sukma Permata for lending me some books about psychology and giving some contribution to my thesis. I also want to thank my other beloved friends
for giving me such wonderful times, smiles, laughs, and shoulders to share ideas, happiness, and sadness. I am so proud of having them in my life.

The greatest thank is given to my RE 08 students from English First Meruya. They are Jessica, Kevin, Riri, Gane, Selly, Stella, Hanny, Yohannes, Gav, Aron, and Tommy. Thank you so much for being nice subjects. I also want to thank to Ms. Naomi Pestie, the Director of Studies from EF Meruya, for giving me permission to do the research at EF and opening my mind to get the best choice. A huge thank is also dedicated to all of teachers and staff at EF meruya for giving me great opinions and critics.

My deepest sorry is given for all of people, colleagues, lecurers, students, friends, neighbors that are not mentioned above. Thank you so much for being parts of my life and forming me to be someone who could finally finish a thesis well.
