Abstract

Intelligent IT Project Management has purpose to improve the existing project management tools. It is further improved to allow users to be able to access this tool through the Internet by implementing this system as an online service. With the help of online service, it is expected to allow project managers to be able to outsource resources from all around the world. It has also implement decision making for project selection and hoped it will support project manager to make decision for selecting a project from various project plans.

To accomplish this research about Intelligent IT Project Management, the method used is more on developing the application along with literature study to help developing this thesis research. Books, articles and analyzing the existing solutions are the sources of information for developing the application.

As a result, the application has met the objectives in implementing the system to be an online service, outsource and will help project managers in making decisions when selecting a project.

Intelligent IT Project Management has accomplished to improvise the existing project management tools and a satisfying result is acquired.

Key words

Project management, online service, file repository, file versioning

ACKNOWLEDGMENT

My deepest appreciation and thanks to:

My supervisor, Mr. Tri Asih Budiono, who supervised me throughout my thesis completion, and who encouraged me with his kind words. You have my deepest thanks.

My parents, who always stood by me all these years, cared for me and believe in me to finish my education and paid all my expences until I graduate. Thank you for your care and support from the bottom of my heart.

My partner, Anthony Ruslim for encouraging me when I'm down and for supporting me throughout my thesis completion. Thank you for all your support and encouragement.

My best friend, Caroline Natalia for all the helped she has given to me, for the encouragement and for supporting me throughout my thesis completion.

My friends for their cheer and supports.

And BINUS UNIVERSITY for all the knowledge learnt and allowing me to graduate on time.
