THE USE OF CYBERCAFE IN SARINAH 24:  
A TRANSITORY PHENOMENON OR WILL IT LAST ?

Abstract

Objective. This thesis aims to investigate the behaviour of internet cafe users and what attracts them there and how cybercafe is going to fit in our community

Method. Following the original method of the journal I am replicating, it is just a simple a plan of distributing 80 questionnaires to samples, which were people who are at the cybercafe, was developed. Data were then analyzed using simple percentage methodology to acquire results

Results. Resulting in 80 usable data, of which consist of 40 males and 40 females. Most of the respondents were there to check their email and to visit specific websites. While most of them complained about the slowness of internet connection, still 62.5 % of them are loyal users of more than 6 months

Conclusion. Cyber cafe is a new phenomenon which evolved from traditional cafe, in which communities gather and interact, and the aid of computer and internet made it into a very much needed facility in the community and they are here to stay.
